

DANUJA JAYASINGHE

UI UX DESIGNER

[Danuja-portfolio](#) | jayasinghedanuja404@gmail.com | +94743194686 | [Linkedin](#)

PROFESSIONAL SUMMARY

UI/UX Designer and Computer Science undergraduate at the University of Westminster, studying at IIT Colombo. Specialised in end-to-end design: user research, wireframing, high-fidelity Figma prototyping, and real usability testing with measured outcomes. Bridges design and development through front-end coding and Android app experience. Actively seeking a placement year in UI/UX design.

PROJECTS

Drop4Life – Blood Donation Mobile App

Individual Project | HCI Coursework | Figma, HCI Principles, Usability Testing

- Designed Rewards and Needs modules with a gamified points and badges system, improving engagement.
- Conducted real usability testing sessions – 70.4% of participants rated the visual design as excellent.
- Applied HCI principles throughout: affordances, feedback loops, and accessibility considerations.
- Produced full hi-fi prototype with 40+ screens covering onboarding, donation flow, and reward redemption.

PeerLit – Collaborative Study Platform

Group Project | UI/UX Lead + Frontend | Figma, Flutter, Frontend Dev

- Led UI design for a gamified AI-integrated study platform targeting academic isolation.
- Designed and developed the landing page, smart search, and peer matching frontend end-to-end.
- Created the platform mascot character, establishing a consistent visual brand identity.
- Delivered live, demo-ready product integrating social focus mode, 3D study spaces, and AI companion.

EcoX – Eco Route & Impact Tracking App

Individual Project | Competition Entry | Figma, AR Concept, Visual Design

- Designed an AR and AI-driven sustainability app for eco-route navigation and pollution awareness.
- Created key mobile screens with consistent design language and intuitive navigation flows.
- Awarded a competition certificate for visual design quality and concept innovation.

Construct Connect – Construction Recruitment App

Group Project | UI/UX Design | Figma

- Designed a mobile app concept connecting construction companies with skilled workers.
- Developed feature-driven UI flows including job matching, filtering, and profile management.

Life on Land – Responsive Project Website

Group Project | Web Design & Development | HTML, CSS, JavaScript

- Led design and development of Feedback and Team components within a four-person team.
- Implemented a validated feedback form following structured web design practices and a full design lifecycle.

SKILLS

Technical Skills

- Wireframing & Prototyping
- User Research & Usability Testing
- User Interface Design (Web & Mobile)
- User Flow Mapping & Information Architecture
- Visual Design & Layout Strategy
- Typography, Colour Systems & Branding
- High-Fidelity Figma Prototyping

Professional Skills

- Problem-Solving & Analytical Thinking
- Clear & Professional Communication
- Time Management & Task Prioritisation
- Cross-functional collaboration with developers and stakeholders
- Development: HTML / CSS / JavaScript, Python, Java, Kotlin, Git & GitHub

TOOLS

Figma, Adobe Illustrator, Adobe Photoshop, Canva, Inkscape, MediBang

EDUCATION

BEng (Hons) Computer Science University of Westminster, UK via IIT Colombo	2024 – 2028
Foundation in Higher Education Informatics Institute of Technology, Colombo	2023 – 2024
G.C.E. Advanced Level Rathnavali Balika Vidyalaya, Gampaha	2019 – 2021
G.C.E. Ordinary Level Rajasinghe Vidyalaya, Ganegoda	2008 – 2018

EXTRACURRICULAR ACTIVITIES

- Student Member, IEEE – IIT Student Branch 2025/26
- Volunteer – Editing Team | FusioNxt 2025 (IET On Campus – IIT)
- Volunteer – Public Visibility | Vertex'25 (IEEE Robotics & Automation Society, IIT)
- Volunteer – organizing committee | Hult Prize 2026 (design lead)
